Interschool Governing Board (IGB)

Student Group Recognition Application

The mission of the Interschool Governing Board (IGB) is to represent and serve the needs of Columbia University student interschool organizations whose membership and mission is interschool in nature and includes a combination of graduate and undergraduate professional schools, groups and students who do not fall under the immediate jurisdiction of other governing boards or individual school councils. IGB is dedicated to overseeing and supporting such student organizations in their efforts to bridge the gaps between various students and academic disciplines on the Columbia University campus.

To apply for recognition, this form and all necessary materials must be completed and submitted electronically to the following email address: igb@columbia.edu. The IGB Budget Committee will determine if everything has been submitted and forward a recommendation to the IGB General Body for official voting. Student Club leadership may be required to follow up with the Budget Committee or attend an IGB meeting to clarify budget details and justifications.

To be considered for recognition, clubs:

- ✓ Must complete and submit the Student Group Recognition Application
- ✓ Can have a faculty/staff **mentor** (a logistics **advisor** will be assigned to you from the Office of Student Group Advising after IGB recognition)
- ✓ Must have a designated President/Chair and Treasurer
- ✓ Must submit a written constitution, and if available, a set of bylaws

Student groups must submit the Student Group Recognition Application and all relevant materials by:

For FALL SEMESTER recognition:

March 1 of the previous school year

For SPRING SEMESTER recognition:

November 1 of the previous calendar year

* No applications will be accepted over the summer.

Please provide a brief summary of the club's goals, why you feel IGB recognition is important, and how students may benefit from your club.

The Columbia Korean-American Scientists and Engineers' Association (KSEA) is a student chapter of a much larger national professional organization that seeks to promote collaboration in the field of science and technology and help members develop their careers. Our chapter seeks to bring together mainly but not exclusive to, Korean-American students in sharing knowledge and friendship through networking, community service and leadership, embodying the missions of the national organization (www.ksea.org)

Due to the plethora of Korean culture groups on campus doing a great job of putting up social events and networking events within the campus, our main goal is to differentiate ourselves by focusing on professional development. We want to facilitate networking outside of campus with professionals in the greater NY area, as well as around the country through conferences and events. Many of the members consist of professors, industry professionals and leaders of our community that we scarcely get a chance to meet personally. By opening a platform for conversation on campus as well as outside of campus, networking happens organically with long-lasting impact.

We provide opportunities for networking with both students and working

professionals in our fields of interest, scholarships through the national organization, subsidized conferences and travel opportunities, and leadership building opportunities.

We had been recognized with EGSC since the Spring of 2016. We have held kick off events every semester where we held competitive brain teaser solving and games, an industry panel discussion called Meet the Experts with guests from IBM, eBay, Phreesia and StrongArm Tech talking about their career path and to advise students on their future endeavors. This semester we took on a series of workshops on the Internet of Things where we had 3 sessions with hands-on time working on a small project using Raspberry Pi.

Unfortunately, EGSC is solely focused on graduate engineering students and limits our reach to the community we want to target. We have been reaching out to undergraduates, who we think would benefit the most from this vast network, but it has been difficult because we don't get information about the student life fair or have a good communication platform to reach them. Still, our membership demographics in the past 2 years have been diversifying and increasing and we think our club is the perfect candidate for recognition by IGB. Thank you!
